

WEICON GmbH & Co. KG

Fast and powerful adhesion

Weicon Natural Stone Adhesive

The manufacturer of specialised chemical products Weicon has developed a new adhesive specifically for the installation of natural stone, both indoors and outdoors – Weicon Natural Stone Adhesive.

Weicon Natural Stone Adhesive is a strong adhesive for fixing natural stone, stone and ceramics. Thanks to the excellent initial adhesion and rapid build-up of adhesive strength, bonding is even possible on vertical surfaces such as walls or masonry. The stone adhesive is suitable for many indoor and outdoor applications. It is frost-proof, has a high temperature resistance of -40 °C to +90 °C as well as high weather and UV resistance. Weicon Natural Stone Adhesive hardens quickly and has a very high final strength.

After curing, the adhesive can be sanded and remains elastic to compensate for movements. The stone adhesive is silicone-free, isocyanate-free, halogen-free and solvent-free.

It can be used in a wide variety of applications, e.g. for bonding window sills, tiles, skirting boards, decorative mouldings or stair treads.

Weicon Natural Stone Adhesive adheres very well to a wide variety of materials, such as wood, woodbased materials, plastics, metals, glass and mineral substrates. It is available in grey and white.
